# A BRAN NEW RIVAL

Opening Up of 4,000 Acres of Coal Lands 189 Miles Nearer Chicago.

THE MONONGAHELA HEADWATERS

Will Ship Black Diamonds by Rail Cheaper Than by Boat.

AN ERIE CANAL PITTSBURG'S ONLY HOPE

People interested in the proposed canal from the Ohio river to Lake Erie should be put on their mettle by the inroads some people are contemplating into the coal districts of Logan, Marion, Monongalia and surrounding counties in West Virginia. T. M. Jenkins & Co., of this city, have secured 4,000 neres in Marion county. The coal is said to be as good for gas purposes as is greatest. known, but, though a fair article, not the best for coking. But the chief value it possesses is that the vein is eight feet thick in the clear and a train of cars can be loaded in the mines. There will be 500 coke ovens in operation on this tract in a short time. The round costs but \$20 an acre and on much of the timber will sell for several times the cost of the land as soon as railways reach the

This section is, by the Baltimore and Ohio Railway system, 189 miles nearer Chicago than is Pittsburg, and 60 miles nearer a Lake Eric port. It is patent at a glance that with veins of the thickness mentioned, and a shorter route to the Northwest, the section mentioned will always have the bulge on the Pittsburg district, that is on that portion of it that must ship down the Monongahela river. This territory is adja-cent to the railway built by ex-United States Senator Camden and others. To connect with Bellevernon 25 miles of rail-way are already built from McKeesport, and 1,000 men are at work, who will soon open the country to the great beyond.

OTHER CAPITAL INVESTING. A number of capitalists, among whom is A number of capitalists, among whom is C. Kimberland, of Pittsburg, have gotten up a company with \$200,000 capital stock, and expect to begin boring for petroleum and gas in Marion county, W. Va., in six weeks. They have leased 6,000 acres of land, and think they will get oil a Prof. White, State Geologist of West Virginia, is of the same opinion, as he has already bored that in the Canter of the Canter o a well in the territory, reaching the Gantz sand. If oil should fail, the coal under and timber on the land will pay largely as soon as railway communication is secured.

There are in Logan, McDonald and other

counties of West Virginia 300,000 acres of land that can be bought, it is said, at \$3 an acre, and under all of it there are coal veins varying from 3)4 to 14 feet in thickness. On this ground, it has been learned by actual investigation, are 800,000 poplar trees over sands of large walnut trees, and white oak trees without number. Many millions of money have been spent in late years build-ing railways where no one lived, while some of the most prosp-rous counties in the Union have none at all.

THE BIG CANAL OFFSET.

This will not long remain so, and if Pittsburg people do not want to be a day behind r in securing a market for their coal, and want to prevent the establishment of blast furnaces elsewhere, they will whoop up the canal project with all their might, soul and strength. It can be put through 100 feet wide, 12 feet deep, locks built and the t. n.< piled for less than \$10,000,000, and craft can be constructed in which coal and iron ore can be carried for one-fifth the cost of railway transportation.

Had the coal and iron interests the push about them that some have they would not wait Uncle Sam's elephantine movements, but sail in and have their coal floating to the Northwest before West Virginia devel-opment secures a foothold. The Kanawha coal operators, with navigation three weeks earlier and three weeks later, and with better draft of water, will soon effectually take the lower river market, but if Pittsburg moves promptly it can secure the North-

## EVERETT PIANO CLUB.

Or Co-Operative System of Selling Pinnes, Is the most successful and satisfactory plan ever tried. We are delivering pianos as fast as our wagons can haul them. Our members get the lowest possible price, because there are enough members to contract for 350 pianos, and thus save \$75 in the price of each piano; 350 members, each paying \$1 per week, will pay for one piano in cash each week, and we deliver one piano per week on these payments. Members who pay all cash, or who pay \$25 cash and \$10 monthly can take their pianos at once, and still get the discount obtained by the club contract. The piano selected by the club has no superior. Having the whole market to choose from on so large a contract, we chose the Everett because it gives full value, dollar for dollar. We pay nothing for reputations of men who died years ago. The Everett is a piano of to-day, with all the latest improvements. The tone is rich, powerful and musical, and they are made to wear. Each piano is warranted for seven years. Now don't wait too long. Our club is not yet full, but we are delivering pinnos, and it is filling up rapidly. Send for circular or call and see the pianos at once. ALEX. Ross, Manager,

137 Federal street, Allegheny.

Fine Trees. On account of the sale of a portion of our nursery land we are compelled to remove the trees thereon, and in order to dispose of them quickly we offer a reduction of 30 per cent from regular prices. Persons placing their orders within 30 days will be entitled to this, and can have the trees delivered any time until April 20, 1800. This stock is very fine, and consists of shade and ornamental trees, from 6 ft. to 30 ft. in height; maples, elms, birches, chestnuts, slanthus, honey locust and Carolina poplars, the best city street tree known; evergreens for the lawn and hedges, and many desirable standard and dwarf fruit trees, grapevines, flow-ering shrubs of large sizes, hardy plants, etc. Persons intending to plant are invited to see them. The saving in an ordinar, family of five by using Walker's Wax Soap, instead of any ordinary soap, is tully 10 cents per week on the actual cost of the soap, and probably five times that amount on the wear and tear of the clothes, estimating the total saving at 60 cents per week, that would be \$31 12 per year, and in 25 years with interest would amount to \$1,167. Ask your grocer for Walker's Wax Soap. MTUF

## Fine \$600 Upright Pinno-\$200.

An excellent "cabinet grand" upright piano, with all improvements, splendid tone and richly carved case. This instrument is as good as new, and will be sold, fully warranted, for \$200. Also a square grand pigno at \$150, and a parlor orgen for \$50, cost \$150. Three great bargains at the music store of J. M. Hoffmann & Co., 537 Smith-field street.

GOING TO PARIS.

Manager Johnston Chats About the Pros pects of the Exposition for Next Year-After Valuable Pointers.

As the sending of Manager Johnston, of the Exposition, to Paris augured something more than ordinary prosperity, an effort was made vesterday to learn something specific from that gentleman. He was found in the Exposition office, and the first direct question received a positive answer.

"Yes, I am going to Paris. I will leave Pittsburg on the evening of the 17th. This will enable me to look up a few things in New York and board the French line for Havre early Saturday morning. This, I think, will land me about the 26th. I am going to the Paris Exposition. I hope to reach there five days before the close. This will give me a very limited time in which to do what I wish, but it was impossible to leave sooner. I dislike very much to leave here before the close, for I would take pride in seeing the last week, as it will be the

"The Exposition Society is sending me Pittsburg is being keenly watched by every Exposition manager in the country, and your newspaper reports are not read by any one any more keenly than by our rival Exposition management. I will say I am sent over there in order to learn whatever will be of interest or of value to the institution here and to myself, or successor. The board realize that the only way to successfully handle an Exposition is to aim high, and make the standard broad gauge and liberal, and above all keep pace with the times. The board knows all this, and that is why I am sent, merely for future reference and for the best interests of the Exposition. "Will you be here as manager next

"No pledges have been made.
"I may remain here as manager and I may not. There is lots of time for that question after a while. Personally, my relations with the board are happy, and I believe mutually agreeable, and I am not worrying over

"I expect to sail for home on the 13th of November, and will at once report to the board, when probably the results of my trip will be made public, as the public owns the Exposition. I have some very valuable let-ters to take with me, and besides that I know some of the management of the Paris show in addition to many of the American

exhibitors.
"I will have very pleasant recollections with me of your Pittsburg business men, and am, in fact, greatly attached to them, seeing them as I do every day. They have been very kind, and everyone did nobly. We would like to see them here next year, and if I am here in 1890 I expect to see the majority. If I am not here, I hope they will continue this movement toward success as success depends entirely upon the ex hibitors, the management and the press. Why, even now this Exposition has no rival in the country but St. Louis, and next year it will tower head and shoulders above them all. More room must be gained somehow. Machinery Hall should be twice as large in order to even attempt to give space to Pitts-burg's great interests. Many valuable exnibits were refused simply on account of

lack of space.
"The Pittsburg Exposition is bound to take a place among the most prosperous in the country. The management has more than fulfilled its contract." Music for to-day at the Exposition:

THEIR PRICES LOW. Some Big Cuts Being Made at Gould &

Borland's Store. If the crowds which swept into Gould & Borland's store, on Liberty street, at the head of Wood street, be any criterion of the firm's merit, then the store in question must be pre-eminent among the drygoods estab-lishments of Pittsburg. All day long yes-terday a ceaseless current of visitors passed through the doors and filled the showrooms. Yesterday's sale began at 10 A. M. and continned without the slightest intermission until evening. The finest silks and cottons were for sale, not to mention real point and Brusells curtains, and carpets of the first quality. Rugs were sold at a reduction of almost 50 cents on the dollar, an unprecedented sacrifice, and all the prices were ex-tremely low. Shawls, linen, damask goods -all were in proportion. Every corner of the big store was filled with substantial and really valuable goods. Altogether Gould & Borland's are carrying on an almost
